Like a county project, this project is open to members of all clubs who may not otherwise have access to a sewing project. Come sew with us! Boys and girls ages 5 - 19 are welcome, all sewing abilities. Youth may sew an item they choose or they may opt to follow along with some instructions given for an easy group project, it all works. "Beginning Stuffs" will be the theme led as an optional group project this year. Making and presenting an item for County Fashion Revue will be suggested but not required. Sewers may choose to sew by hand or machine. Youth will plan, prep and sew in project time but this project works best when youth also sew at home to get more time in. Currently the project does not have machines to loan so bring yours, share with a friend or sibling, or sew by hand.

Ages: Primaries (5-8yrs) should bring an adult who will stay for the meeting. Ages 9 and up may be dropped off with prior permission and a second adult present at the meeting. Leaders preferred ratio for safety with sewing: 1 adult to every 5 youth.

Youth will be purchasing the majority of their materials independently, cost varies with the choices they make. Recycling and getting super deals at thrift store will be discussed.

We are looking for as many adults as possible to help lead and join in the fun if they like. Teen Leader: Caroline Hampton and ??? We'd l o v e to have more jr or teen leaders!!! Contact us asap so you can help us plan!

Youth can leave meetings early if desired, my goal with 2 hr meetings was to allow max. sewing time for those who need it.

Thanks,
